Independent Auditor's Report

Board of Directors
The Bellin Health Foundation, Inc.
Green Bay, Wisconsin

We have audited the accompanying financial statements of The Bellin Health Foundation, Inc., which comprise the statements of financial position as of September 30, 2018 and 2017, and the related statements of activities and cash flows for the years then ended and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of The Bellin Health Foundation, Inc. as of September 30, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies

Principal Business Activity

The Bellin Health Foundation, Inc. (the “Foundation”) is a nonstock, nonprofit corporation that receives gifts and bequests, raises funds for specific projects or needs, administers and invests funds, and disburses payments to and for the benefit of Bellin Health Systems, Inc. and affiliates and other tax-exempt organizations at the discretion of its Board of Directors (the “Board”). The Foundation also operates coffee and gift shops at Bellin Memorial Hospital, Inc.

Bellin Health Systems, Inc. has the ability to influence the actions of the Foundation since Bellin Health Systems, Inc.’s Board of Directors approves the nominations for the Foundation’s Board. The Foundation is included as a consolidating entity in Bellin Health Systems, Inc.’s consolidated financial statements. The following entities comprise Bellin Health Systems, Inc.:

- Bellin Memorial Hospital, Inc.
- Bellin Psychiatric Center, Inc.
- The Bellin Health Foundation, Inc.
- Bellin College, Inc.
- Lake Michigan Health Care Services, Inc.

A significant portion of funds raised by the Foundation are transferred to affiliates for use as directed by donors.

Basis of Presentation

The Foundation follows accounting standards contained in the Financial Accounting Standards Board Accounting Standards Codification (ASC). The ASC is the single source of authoritative accounting principles generally accepted in the United States (GAAP) for nongovernmental entities.

Use of Estimates in Preparation of Financial Statements

The preparation of the accompanying financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ from these estimates.

Note 1: Summary of Significant Accounting Policies (Continued)

Classification of Net Assets

Net assets and revenue, expenses, gains, and other support are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets of the Foundation and changes therein are classified and reported as follows:

- *Unrestricted net assets* are neither temporarily nor permanently restricted by donor-imposed stipulations.
- *Temporarily restricted net assets* are those whose use by the Foundation has been limited by donors to a specific time period or restriction. As the restrictions are met, the temporarily restricted net assets are released and are recognized as unrestricted support. In addition, investment earnings on permanently restricted endowment funds are classified as temporarily restricted net assets until appropriated for expenditure.
- *Permanently restricted net assets* are those amounts contributed by donors with the express intent that the principal be maintained by the Foundation in perpetuity.

Investments, Assets Limited as to Use, and Investment Income

Investments, including assets limited as to use, are measured at fair value in the accompanying statements of financial position. Donated investments are reported at fair value at the date of receipt, which is then treated as cost.

Investment income or loss (including realized and unrealized gains and losses on investments, interest, and dividends) is included in unrestricted revenue, gains, and other support unless the income or loss is restricted by donor or law. Realized gains or losses are determined by specific identification.

Assets limited as to use include assets set aside to fund restricted donations and amounts designated by the Board to function as endowments.

The Bellin Health Foundation, Inc.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Beneficial Interest in Charitable Lead Trust

The Foundation is an income beneficiary of an irrevocable charitable lead trust. The charitable lead trust agreement requires a distribution of 7% of the fair market value of the assets as of the beginning of the year to designated beneficiaries for a period of 15 years beginning December 31, 2014. Revenue and a related asset were recognized at the date the trust was established at an amount equal to the present value of the Foundation's interest in the future cash flows. The asset is adjusted during the term of the trust for changes in the estimate of future benefits based on a discount rate of 4%, and such changes are included as revenue and temporarily restricted net assets, as applicable.

Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A three-tier hierarchy prioritizes the inputs used in measuring fair value. These tiers include Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exists; therefore, requiring an entity to develop its own assumptions. The asset's or liability's fair value measurement within the hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Contributions and Promises to Give

Contributions are recognized when the donor makes a promise to give to the Foundation that is, in substance, unconditional. The Foundation reports contributions as restricted support in temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statements of activities as net assets released from restrictions. Promises to give funds for property and equipment are released from restrictions when the funds are received and the property and/or equipment is purchased or built.

The Bellin Health Foundation, Inc.

Notes to Financial Statements

Note 1: Summary of Significant Accounting Policies (Continued)

Contributions and Promises to Give (Continued)

Unconditional promises to give that are expected to be collected within one year are recorded at their net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of estimated future cash flows on a discounted basis applicable to the years in which the promises are expected to be received. Amortization of the discount is included in contribution revenue over the duration of the promise. Conditional promises to give are not included as support until such time as the conditions are substantially met.

Management individually reviews all past due unconditional promises to give balances and estimates the portion, if any, of the balance that will not be collected. The carrying amount of the unconditional promises to give is reduced by allowances that reflect management's estimate of uncollectible accounts.

Contributions are considered available for unrestricted use unless specifically restricted by the donor. Donor-restricted contributions whose restrictions have been met in the same reporting period as received are reported as unrestricted contributions in the accompanying financial statements.

Income Taxes

The Foundation is a nonprofit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the "Code") and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. The Foundation is also exempt from state income taxes on related income.

New Accounting Pronouncement

In August 2016, the Financial Accounting Standards Board issued Account Standards Update (ASU) No. 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities* (Topic 958). This ASU updates financial statement presentation and disclosure requirements for not-for-profit entities in an effort to make the information more meaningful to users of the financial statements. Changes noted in the ASU can include but are not limited to disclosure of functional and natural expense classifications, liquidity, and additional disclosure requirements. This ASU is effective for the Foundation's year ending September 30, 2019.

Subsequent Events

Subsequent events have been evaluated through February 4, 2019, which is the date the financial statements were available to be issued.

Notes to Financial Statements

Note 2: Investments, Assets Limited as to Use, and Investment Income (Continued)

Most long-term investments are held in an investment pool. Investment income is allocated among the various unrestricted, designated, and restricted groups monthly based on the weighted-average balance in each group.

Investments, in general, including those reflected in assets limited as to use, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of certain investments will occur in the near term and such changes could materially affect the amounts reported in the accompanying financial statements.

Investment Income

Investment income was comprised of the following for the years ended September 30:

2018	Unrestricted	Temporarily Restricted	Total
Interest and dividend income - Net	\$ 61,220	\$ 19,750	\$ 80,970
Net realized gain on sale of investments	96,884	31,252	128,136
Change in net unrealized gains and losses on investments	(2,154)	(695)	(2,849)
Total investment income	\$ 155,950	\$ 50,307	\$ 206,257
2017			
Interest and dividend income - Net	\$ 47,782	\$ 16,440	\$ 64,222
Net realized gain on sale of investments	177,541	61,087	238,628

Total investment income	\$ 247,428	\$ 85,133	\$ 332,561

Interest and dividend income include investment fees of \$17,570 and \$16,903 as of September 30, 2018 and 2017, respectively.

The Bellin Health Foundation, Inc.

Notes to Financial Statements

Note 3: Fair Value Measurements

Following is a description of the valuation methodologies used for assets measured at fair value:

Cash equivalents, consisting of money market funds, are valued using \$1 as the net asset value (NAV). Fixed income securities are valued using quotes from pricing vendors based on recent trading activity and other observable market data. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Foundation are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Foundation are deemed to be actively traded. Equity securities are valued based on quoted market prices. The charitable lead trust is measured at the present value of future cash flows considering estimated future cash flows over the term of the trust agreement and a discount rate based on the risks involved.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Foundation believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 7: Endowments

The Foundation's endowments consist of different funds established to benefit the Foundation for a variety of purposes. The Foundation's endowments include both donor-restricted endowments and funds designated by the Board to function as endowments or quasi-endowments. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Note 7: Endowments (Continued)

Donor-Restricted Endowments

The Foundation's Board has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the Foundation to preserve the fair value of the donor's original gift, as of the date of the gift, absent any explicit donor stipulations to the contrary. As a result of this interpretation, the Foundation classifies as permanently restricted net assets (a) the original value of the donor's gifts to the permanently restricted endowment, (b) the original value of a donor's subsequent gifts to the permanently restricted endowment, and (c) accumulations to the permanently restricted endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The investment income of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Board in a manner consistent with the standard of prudence prescribed by UPMIFA.

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the various funds, (2) the purposes of the donor-restricted endowment funds, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Foundation, and (7) the Foundation's investment policies.

Board-Designated Endowment

The Board has set aside certain unrestricted net assets for endowment purposes. Since these amounts are not restricted by the donor but are restricted only by Board policy, the amounts have been classified as unrestricted net assets. The Board may designate additional amounts from time to time to be added to the board-designated endowment fund.

Investment Return Objectives, Risk Parameters, and Strategies

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowments while seeking to preserve the fair value of the endowment assets. Under the Foundation's investment policy, as approved by the Board, the endowment assets are invested in a manner to protect principal, grow the aggregate portfolio value in excess of the rate of inflation, achieve an effective annual rate of return that is equal to or greater than the designated benchmarks for the various types of investment vehicles, and ensure any risk assumed is commensurate with the given investment vehicle and the Foundation's objectives.
