TEAM-BASED CARE TRAINING CAMP
An On-site Intensive with Bellin Health and AMA

April 1-3, 2019
Lambeau Field, Green Bay, WI

JOIN US!

Learn how Bellin and other leading organizations design, implement, and sustain a team-based approach to achieving population health that is being recognized nationally as a winning game plan.

Primary Care
Specialty Care
Acute Care
Conditions
(Congestive Heart Failure, Depression/Anxiety)
AGENDA

You will learn how to:

• Manage the cultural transformation to build a true team atmosphere
• Build the infrastructure to support your players, coaches, and front office
• Keep the right stats to analyze success and guide decisions
• Sustain championship-level performance year after year

Come away from Training Camp with a personalized game plan for achieving 3 WINS for any type of health care practice:

WIN for the patient The patient gets more comprehensive and coordinated care from a wider variety of providers and support professionals.

WIN for the care team Everyone on the care team enjoy working at the highest level of their licensure.

WIN for your health care system Benefiting from a more efficient use of resources, your health care system can lower costs and provide faster access to the right level of care.

Monday, April 1, 2019

PREGAME
3-5 pm | Optional Pre-Conference Session
Introduction to Achieving Population Health Through Team-based Care: Open forum with Bellin leaders about the journey into care delivery redesign, and advice on how to get started

KICK-OFF RECEPTION
7-9 pm
Cocktails and hors d’oeuvres will be served
Please wear your local (or favorite) NFL jersey so we can see where your team is from; we’ll form our very own league of pros to continue networking long after Training Camp has ended

Lambeau Field, Bellin Gate, 1265 Lombardi Avenue, Green Bay

Tuesday, April 2, 2019

Discussion with the Coaches
• Administrative Track: A Deeper Dive in Population Health Model
• Clinical Track: A deeper Dive into Clinical Issues of Interest to Attendees

3 pm | Program Concludes
Meet Your Coaching Staff

**Paul Grundy, MD, MPH, FACOEM, FACP**
Global Director Healthcare Transformation, HealthTeamWorks

Dr. Grundy known as the Godfather of the PCMH has spent 4 decades focused on population health built on a platform of a healing relationship of trust in primary care.

Winner of the Barbara Starfield Patient Centered Primary Care, NCQA Quality and the Sappington awards.

Paul spent over 17 years as an executive at IBM where he was Chief Medical Officer and Global Director, Healthcare Transformation, IBM HCLS Industry and a member of the IBM Industry Academy.

He is a healthcare ambassador for the nation of Denmark, Honorary Life Member of the American Academy of Family Physicians, Irish National Association of General Practice and the National Association of Primary Care In the United Kingdom.

Adjunct Professor at the University of California San Francisco Department of Family and Community Medicine and the University of Utah Department of Family and Preventive Medicine.

He is a member of National Academy of Science’s National Academy of Medicine and a member of its leadership forum.

Director of the Accreditation Council for Graduate Medical Education (ACGME) board which accredits residency training in both the USA and Singapore.

Dr. Grundy is the founding president of the Patient-Centered Primary Care Collaborative. Dr. Grundy served in the Carter, Reagan, Bush 1 and Clinton administrations and is a retired senior diplomat with the rank of Minister Consular U.S. State Department. He served in Singapore for three years as a Medical Director at International SOS.

**Kevin Hopkins, MD**
Medical Director, Department of Family Medicine, Cleveland Clinic Dr. Hopkins is the Medical Director and a Staff Physician in the Department of Family Medicine at the Cleveland Clinic Strongsville Family Health and Ambulatory Surgery Center in Strongsville, Ohio. Over the past several years he has become a recognized leader and national speaker in the field of ambulatory practice re-design and transformation. Dr. Hopkins has led the transition of his primary care group to a model of value-based care and is continuing to leverage an advanced team-based care practice model, as a vehicle to achieve population management.

Dr. Hopkins has been a staff physician at Cleveland Clinic since 2005. He completed his residency at Miami Valley Hospital in Dayton, Ohio after graduating from medical school at Wright State University.

**Christine Sinsky, MD**
Dr. Sinsky is the vice president of professional satisfaction at the American Medical Association. A board certified internist, she also practices at Medical Associates Clinic and Health Plans in Dubuque, Iowa.

Dr. Sinsky has worked to elevate national awareness of health professional well-being as an important driver of health system performance. From 2011 to 2012 she led “In Search of Joy in Practice: A Report of 23 High-Functioning Primary Care Practices,” a project of the ABIM Foundation. She also co-authored the 2013 paper “From Triple to Quadruple Aim: Care of the Patient Requires Care of the Provider” At the AMA she leads the development of initiatives to improve clinician well-being and reduce burnout.

Dr. Sinsky is a fellow of the American College of Physicians (ACP) and is the recipient of the Iowa ACP 2013 Laureate Award.

A frequent invited lecturer on practice innovation, redesign, and physician satisfaction, Dr. Sinsky has presented widely, both nationally and internationally.
The focus of an American Medical Association (AMA) education series, Bellin's innovative model for team-based patient care is providing breakthrough results. Exceeding expectations for both quality and financial metrics, Bellin's unique approach has proven to be a win for our patients, our providers, and ultimately our system.

AMA AND BELLIN: WORKING TOGETHER
The AMA's physician education experts have teamed up with Bellin and its nine-step framework for team-based patient care to create an unbeatable game plan for a robust and scalable model of care. Their combined expertise provides a researched-based playbook and elite-level coaching in a fun, interactive, and practical training camp format.

Who should attend?
It only makes sense to bring a team to learn about team-based patient care. Of course, a “team of one” sent to scout feasibility is always welcome. Content is relevant whether you’re still a rookie or a pro ready to fine-tune an existing patient care redesign.

- Skill Players (clinical providers at all levels)
- Coaches (health care strategists and medical directors)
- Front Office Staff (financial and administrative leaders, clinic managers)
- Scouts (operations and innovation leaders looking for new ideas)

Location
Lambeau Field
1265 Lombardi Ave., Green Bay, WI 54304

“I have visited many primary care practices and have shadowed many care teams. This was the most impressive team-based care model we have seen.”
Thomas Bodenheimer, MD, MPH, Professor Emeritus of Family and Community Medicine, University of California, San Francisco Founding Director, Center for Excellence in Primary Care

“Everyone in the nation should look into and adapt Bellin’s team-based care model.
Best yet!”
Kelly Smith, Scientific Director Quality and Safety Research, MedStar Research Institute
