

MICHIGAN COVID-19 RESOURCES

The following resources have been gathered during times of ever changing resources in our community due to COVID-19. The best effort has been made to ensure information is current, but with resources frequently changing, you may want to call ahead for the most up to date information. As the community comes together to support each other, new resources that are less formally regulated are also being created to meet needs, so always be mindful of being a good consumer and reach out with any questions. Diapers/Formula:

Encourage

- Encourage your expecting patients to purchase diapers now, before delivery, in the event shelves are empty at time of delivery.
- Many formula companies were offering formula for no cost. However, as the supply continues to grow, encourage patients to call the company to inquire about this option, as the opportunity to receive formula for free is changing.
- Parents can check with the local non-profits including: St. Vincent De Paul and MI the ISD Agency, at 906-863-5665.
